

MIDTERM EXAM-II STUDY GUIDE

Chapter 4

- Insertion Sort
- Topological Sorting
- Generating Permutations algorithms
 - Minimal Change
 - Johnson Trotter
- Generating subsets
 - Bit strings
- Binary Search
- Quick select-Lomuto's Partitioning

Chapter 5

- Master Theorem
- Merge Sort
- Quick Sort
- Multiplication of large integers
- Strassen's matrix multiplication
- Closest-Pair Problem

Chapter 6

- Presorting
- AVL Trees
- 2-3 Trees
- Heaps
- Heap sort

EXAM RULES

- 1- Closed notes
- 2- No cheat sheet
- 3- No calculator
